With our Hidden Roller Series barn door hardware, your door almost appears to float in midair, with no visible mounting straps or rollers. All you see from typical viewing angles is the exposed half of the track. You get the convenience of sliding doors in a clean, contemporary style that you have to see to believe! Hidden Roller Series roller hangers are factory equipped with silent rollers. Hardware, hangers, and track are available in 3 of our most popular powder coat colors. All major steel components are made with up to 90% recycled materials.

Goldberg Brothers products have been proudly made in USA since 1897. Our commitment to quality, craftsmanship and value is built into everything we do.
