

GOLDBERG BROTHERS BARN DOOR HARDWARE

Stainless Steel Series

Our Stainless Steel Series offers a more elegant, modern style, with rounded corners on the roller hangers, round lag bolt cover caps, and a #4 brushed finish. Major components are made from solid stainless steel – not plated – for superior durability. Our stainless steel hardware can even be used in areas that are exposed to moisture.

Stainless Steel hardware set

8 Hanger Styles

- Hardware sets to fit 1 3/8", 1 1/2", and 2 1/4" thick doors
- solid steel with #4 brushed finish
- 8 roller hanger styles
- 6 track lengths from 4' to 8'
- Custom-cut tracks available up to 16'
- Glass door hardware available
- 2- and 4-door bypass systems available
- Matching door pulls available

Hidden Roller Series

With our Hidden Roller Series barn door hardware, your door almost appears to float in midair! The secret is our new roller hanger design that mounts out-of-sight on the back of the door. With no visible mounting straps or rollers, all you see from typical viewing angles is the exposed half of the track, for a clean, contemporary style.

Single Roller hardware set

Double Roller Hanger

- Works with most solid or hollow-core door styles at least 1" thick.
- Requires less clearance below the ceiling or soffit than conventional barn door hardware.
- Made with DuPont™ Delrin® acetal resin rollers for smooth, reliable performance.
- Available in black, silver metallic, or arch bronze powder coat finishes.
- Fits our MP Series track, sold separately.

Barn Door Edge Wrap

**Also available
for shutters and
curved doors**

- Turns almost any wood or other materials into a finished barn door
- Adds rigidity to reduce warping
- Hides and protects door edges
- 16 powder coat colors available
- Sizes for doors from 3/4" up to 2 1/4" thick
- Sold in 4 common sizes up to 8'0"x8'0"
- Easy to cut to a custom size
- Pre-cut custom sizes available
- Kits for curved doors available

Dummy Series & Shutter Series

Exterior Dummy Roller Series
Make decorative window shutters look like barn doors. Rollers are not movable after installation.

Shutter Series
Fully functional barn door hardware in a smaller size for shutters and cabinets.

Since 1897, Goldberg Brothers has been one of the leading specialty hardware manufacturers in the western United States. You can find Goldberg Brothers products at millwork and building supply stores across the USA, western Canada, and some parts of the Caribbean.

Accessories, Options & Customization

Goldberg Brothers offers a wide range of accessories to customize your barn door hardware installation. Many of them can be used with any sliding door, regardless of manufacturer. Ask your Goldberg Brothers dealer about these little extras that make a big impact.

Pair Linking Kit

Synchronize a bi-parting pair of barn doors. When you open or close one door, both doors move. Available for use with Standard, MP/CP, and Stainless Steel Series hardware.

Privacy Latches

Accent Trims

Pull Handles

Flush Pulls

Soft Stop motion buffers

Standard, Barnfold®, Shutter, and Interior Dummy Series hardware is available in raw steel and 16 powder coat colors. MP, Hidden Roller, and Exterior Dummy Series hardware is available in Black, Silver Metallic, and Arch Bronze. CP Series hardware is available in Matte Black, Silver Metallic, and Bronze Texture.

Color samples are approximate. PC Chrome is a glossy powder coat finish that resembles chrome. It is not chrome plating.
