

GOLDBERG BROTHERS

BARN DOOR HARDWARE

ADJUSTABLE TRACK STOPS

When an installed barn track is longer than necessary, an adjustable track stop accessory from Goldberg Brothers will allow you to stop the barn door at the correct position without replacing or cutting the track.

STANDARD SERIES

- Fits all 2" wide Standard Series track
- Economical alternative to replacing the entire track system
- Reversible for stopping the door in either direction
- Slips over either end of the track
- Can be installed without removing the track
- Available in all Standard Series powder coat colors
- Two set screws and an installation tool included

Shown approximately actual size.
